# OVERVIEW

---

What kinds of learning opportunities and environments do today's growing and diverse population of adolescent multilingual learners need? How can we design classrooms and curriculum to drive their academic success while supporting them to thrive as individuals?

Spotlight: a content-based, comprehensive approach to instruction to promote students' literacy, social-emotional and critical thinking skills.

Changing Demands of  
Workforce Participation  
in the 21<sup>st</sup> Century

Through technological advancements, the literacy skills necessary for students' success in work and life have been redefined

“In order to prepare young people to do the jobs computers and technology cannot do, we must re-focus our education system around one objective:

**Giving students the foundational skills in problem-solving and communication that computers don't have.”**

## **CHALLENGE (& OPPORTUNITY):**

To design learning environments and curricular materials that create a tight match between the skill and competency demands of today's context and students' needs and developmental stage

## **LET'S LOOK AT THIS IN TWO WAYS:**

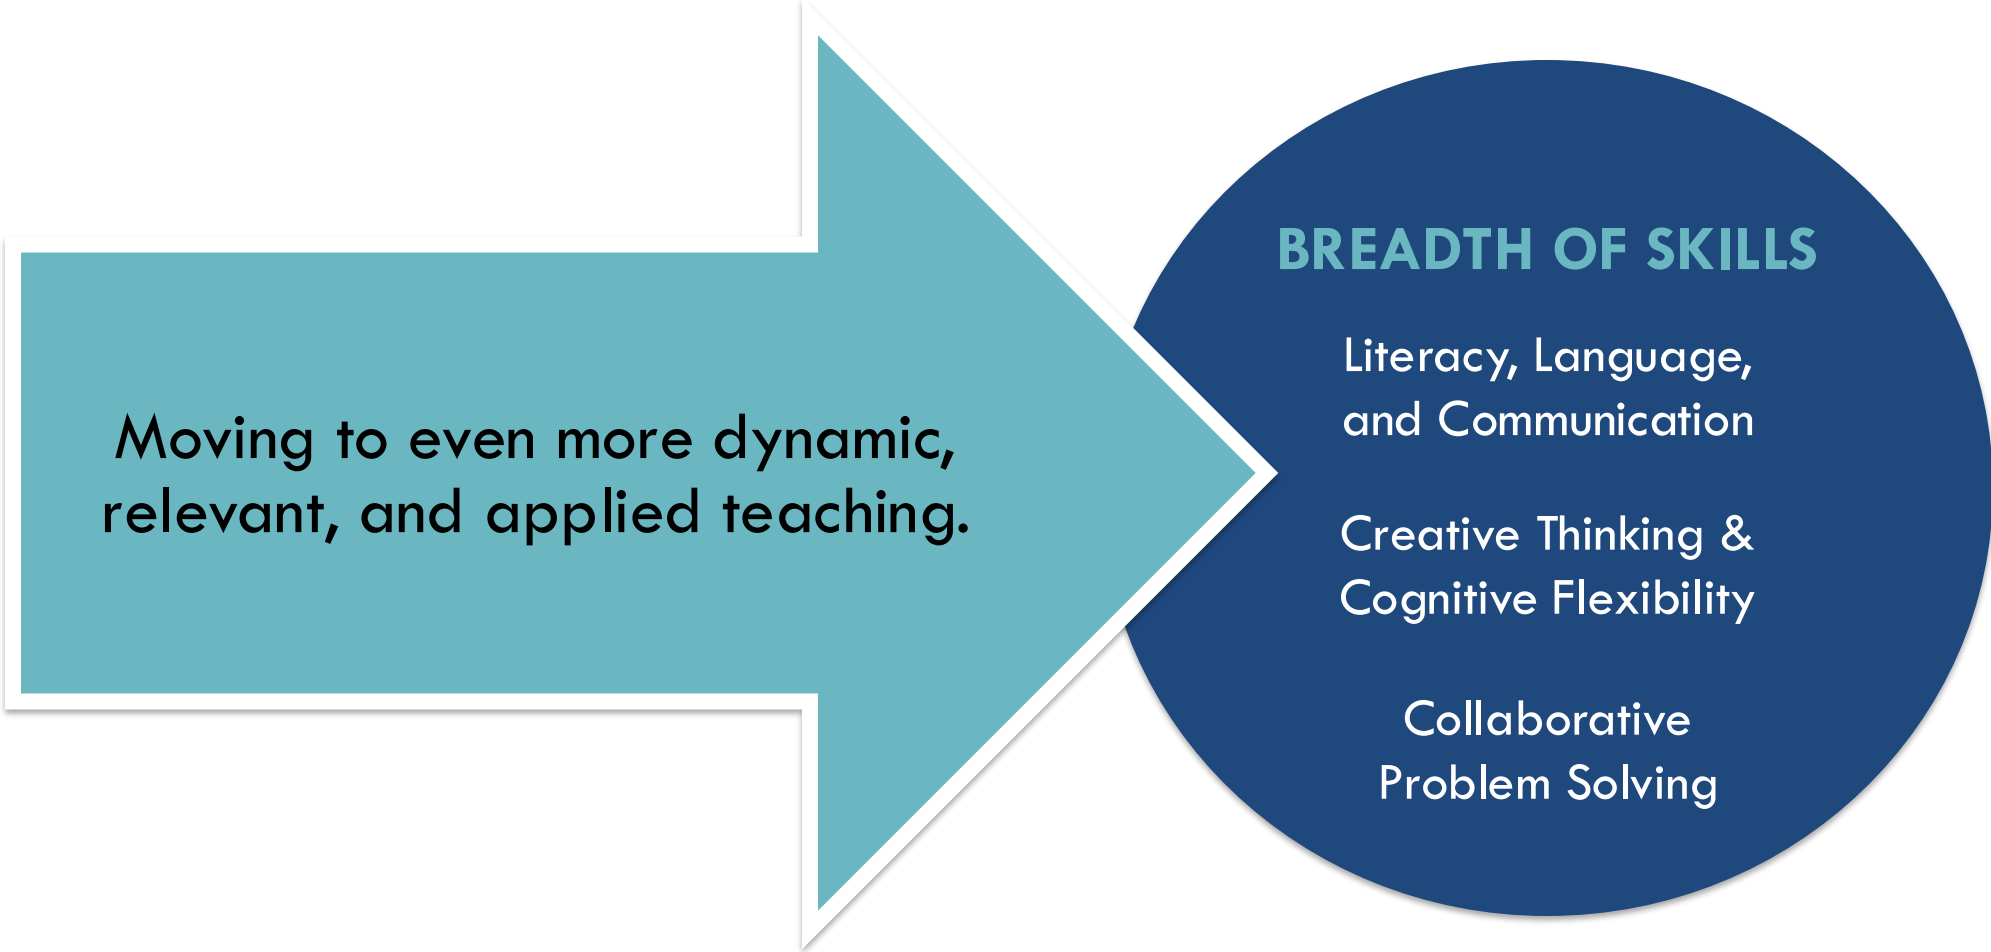

- ① What does this learning environment look and feel like?
- ② What does this mean for the approach to classroom learning and curriculum design?

A large flock of birds, possibly terns, is seen flying over a body of water. The birds are densely packed in the center of the frame, creating a textured, almost cloud-like appearance. The water is a deep blue, and a sandy beach is visible in the foreground. The sky is a pale, hazy blue. The overall scene is serene and natural.

ENVIRONMENT LOOK AND FEEL LIKE?**

Moving to even more dynamic,  
relevant, and applied teaching.

## BREADTH OF SKILLS

Literacy, Language,  
and Communication

Creative Thinking &  
Cognitive Flexibility

Collaborative  
Problem Solving

## LEARNERS ARE:

### COGNITIVE

Critical Thinking, Planning and Ways of Working, Communication, Mental Flexibility

### INTERPERSONAL

Mobilizing Systems, Developing Relationships, Teamwork Effectiveness

### SELF-LEADERSHIP

Self-Awareness and Self-Management, Entrepreneurship, Goals Achievement

### DIGITAL

Digital Fluency and Citizenship, Software Use and Development, Understanding Digital Systems

studying unstructured problems in the context of a content-rich approach to knowledge-building

building up conceptual reasoning skills and the ability to work with new information

engaging in oral and written communications meant to convey knowledge and reasoning to others

working in collaborative, culturally competent ways through team-based, project-based approaches

# What are the Core Elements of Literacy Instruction?

*Mapping Knowledge, Skills, & Competencies for a New Era to Today's Classrooms*

## ENVIRONMENTS WHERE LEARNERS ARE:

Mentally active

Engaged

Socially interactive

Building meaningful connections to their lives

A large flock of birds, possibly terns, is captured in flight over a coastal landscape. The birds are densely packed in the center and lower right, creating a textured, almost abstract pattern of white and grey against the background. The background shows a sandy beach in the foreground, a blue ocean to the left, and a hazy, golden-brown sky above. The overall scene conveys a sense of natural order and movement.

CURRICULUM DESIGN + CLASSROOM LEARNING?**

# What are the Core Elements of Literacy Instruction?

## DESIGN PRINCIPLES

Organizes learning around units of study with content-rich themes and texts

Provides rigor and challenge in a supportive context

Combines explicit instruction with inquiry-based learning

Promotes culturally responsive learning environments

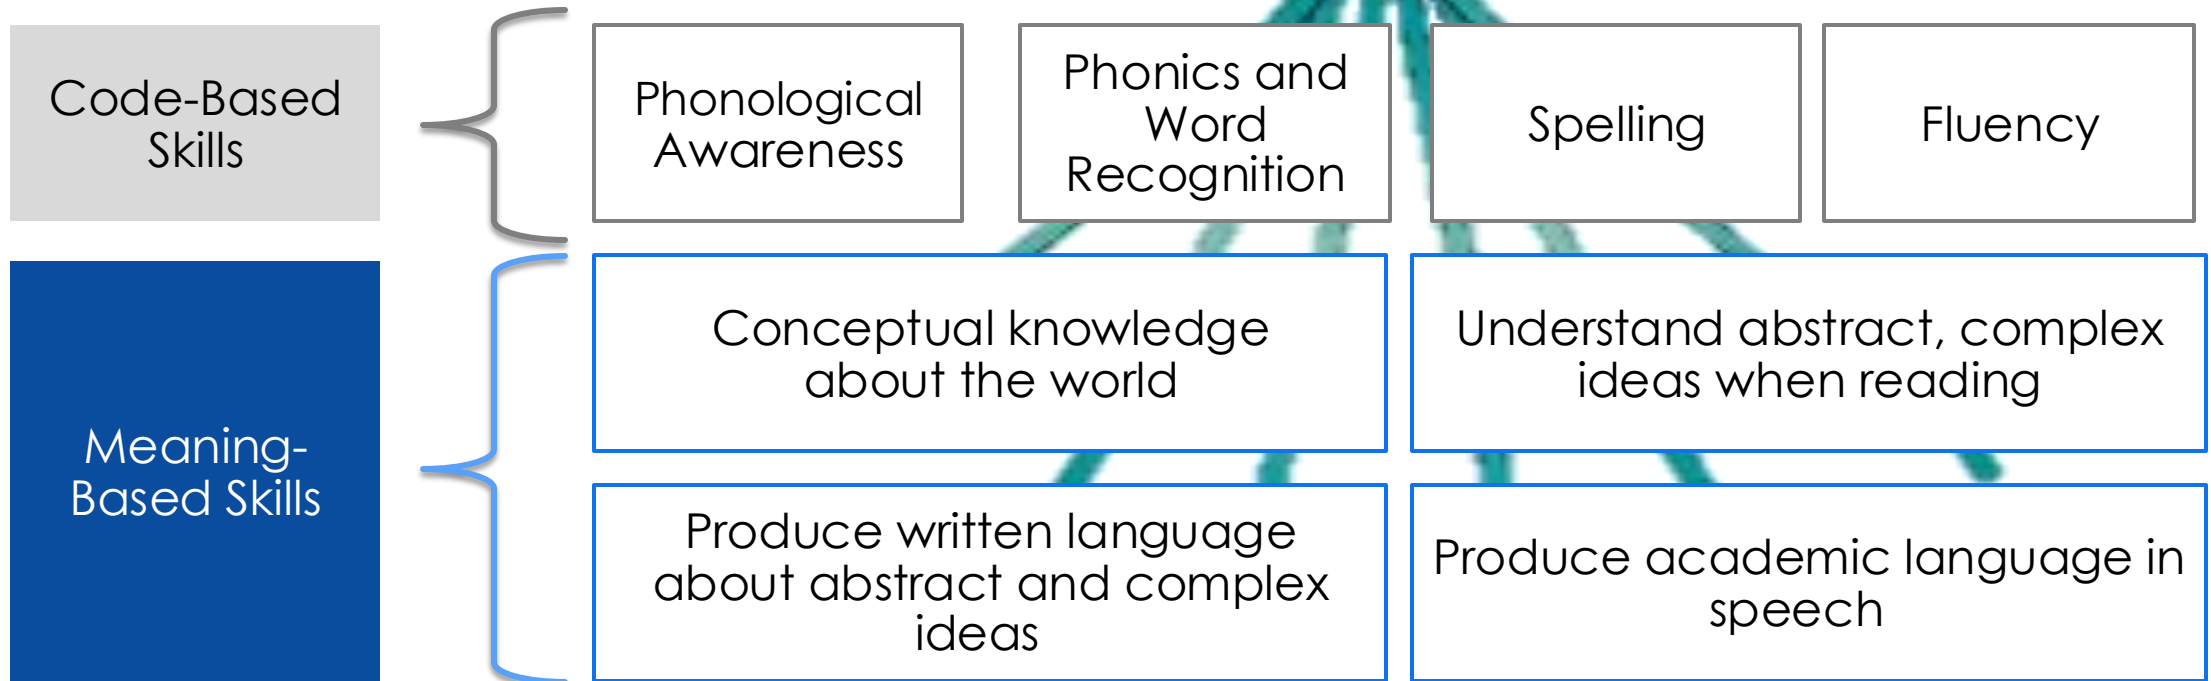

Uses consistent routines and language

Supports peer-to-peer interaction

## Process Features

- Safe, caring environments
- Warm climate, tone/tenor
- Consistent, effective routines, behavior + classroom management practices
- Opportunities to develop strong relationships

## Developmentally Appropriate Instruction

- Rigorous and supportive
- Units of study w/ rich content
- Frequent opportunities to respond (oral, written, small + whole group)
- Collaborative learning, peer-to-peer learning interactions
- Opportunities to monitor growth

*Serving Today's Multilingual Learners*

From...

To...

Basic ESL instruction

An advanced literacy learning environment

Wide variation in text levels

On-grade level text with scaffolds for differentiation

Coverage and volume

Deeper and active learning to increase engagement

Limited diversity of text, often U.S.-centric content

A global content-based approach with varied genres and media

From...

Solely basic English  
language instruction for  
adolescent multilingual  
learners

To...

Advanced  
communication and  
literacy learning in a  
collaborative  
environment

**Design Shift #1**

From...

Materials and lessons  
often inaccessible to  
students  
(too easy or too challenging)

“Covering” standards  
with units and readings  
that are too long

To...

A modular approach to  
standards: shorter units  
w/dynamic learning  
cycles that revolve  
around authentic  
grade-level text

**Design Shifts #2, 3**

From...

Limited diversity of text  
that doesn't capture  
today's global, diverse  
learners' lives and  
contexts.

To...

A globally-focused  
approach with varied  
texts, genres, and digital  
literacy for meaningful  
study and exploration.
